PROJECTS

Portfolio website https://sathishcv.tiiny.site

•Developed a fully responsive personal portfolio website using HTML, CSS, and JavaScript to showcase my skills, projects, and contact information.
•Implemented smooth navigation and interactive UI elements for an engaging user experience.
•Integrated EmailJS for a functional contact form, enabling users to send messages directly without backend code.
•Designed a clean, modern layout optimized for both desktop and mobile devices.

e-commerce website Github :https://github.com/mscsathish

•Built a dynamic and responsive e-commerce web application using React.js for the frontend.
•Developed product listing, search, and filtering features for smooth shopping experience.
•Implemented cart and checkout functionality with state management.
•Integrated responsive design for seamless use across devices.
•Focused on clean UI and performance optimization for faster load times.
